EXPERIENCE

Open Source Contribution

Dec 2022 - present

Junior Full Stack Software Developer

Online

- Finding ways to contribute to open source on GitHub, Discovering relevant projects, finding good first issues and validating an issue or pull request.
- Testing a pull requiest by merging a pull request into local copy of the project and testing the changes. Add the outcome of your testing in a comment on the pull request.
- Updating issues by adding additional information to existing issues.
- Reproducing a reported bug.
- <https://github.com/firstcontributions/first-contributions>

Projects

Sep 2022 - Feb 2023

Group Contribution

College, UK

- Created a website by a small group of people,and used postmen to get, push and post data to the nodejs and express.js
- Successfully styled and implemented an easy way for the user to use the website.
- Significantly enhanced data processing speed, achieving an impressive 70% for the customer effectiveness using overall website and reduced buffering for the customer when using website and different services.
- Increased the security for every individual account created by a userName, Login and @gmail account
- Working on many projects online with diferente programming languages and increased high potential to them.

Python script

Apr 2022 - present

- I created a selenium script for my favorite game called Triburile.ro
- The scrip does multiple action while check for CATCHA and time management automation to be called as fast as can or delay for a specific time. I downloaded a few files (geckodriver) for firefox and a new user.
- Script does, attack barbar villages, sell/buy resourse (wood,stone, clay) , buy/sell(exchange)points premium and more.
- This game allows you to create and practice scripts as much as you want. And save trimendous amount of time.

Writing codes

Apr 2022 - present

- Courses , certificates , challenges, group work and online contribution, I believe it build a strong programmer.
- I achieved a great experience up to this moment and I know, I will continue my journey, because I genuinely enjoy it and, I also support other people answering non-technical questions related to the IT sector.

Tilbury Port, Banksman

Present

- I am the person who directs the movement of vehicles on the bout.
- Ensuring that vehicles move safely and don't endanger people or property. Keeping workers safe from accidents involving vehicles or mobile plant and helping drivers make safe maneuvers.
